

## Attachment 16-2: Quarantine Requirements for the Importation of Animal Vaccines

(In case of any discrepancy between the Chinese text and the English translation thereof, the Chinese text shall govern.)

Promulgated on March 29, 2022

1. The quarantine requirements regulate the importation of animal vaccines referring to pharmaceutical preparations of microbial origin for animal use and categorized as the following goods of the Commodity Classification Code (CCC Code) of the Republic of China:
  - 1.1 3002.30.10.00-4 “Vaccines against foot and mouth disease”
  - 1.2 3002.30.90.00-7 “Other vaccines for veterinary medicine”
2. In an epidemic or threat of epidemic situation of infectious animal diseases, the central competent authority may adopt the emergency measure that no animal quarantine inspection is required for the importation of animal vaccines by executive order or importing approval.
3. For the importation of animal vaccines, the importer shall obtain a license or permit of importing veterinary drugs issued by the central competent authority; and the relevant information on the vaccines shall be in line with the information noted in the license or the permit of importing veterinary drugs issued by the central competent authority.
4. For the importation of animal vaccines, the importer shall provide the license or permit of importing veterinary drugs issued by the central competent authority and an original veterinary certificate issued by the competent authority of the exporting country. The certificate shall state the following information in English or Chinese:
  - 4.1 Name and address of the manufacturer;
  - 4.2 Name, lot number and quantity of vaccine;
  - 4.3 The country of origin shall be noted on the consignment imported into other countries and re-exported.The content of the veterinary certificate issued by the competent authority of the exporting country should be consented by the import/export animal quarantine authority before the consignment being exported.
