<sup>1</sup> Documents issued in the RD series are not official WTO documents. They usually appear in their language of submission and will not be translated systematically into the working languages of the WTO. They are intended for use in WTO meeting rooms and are attributed an unofficial symbol for archiving purposes only.

Les documents de la série RD ne sont pas des documents officiels de l'OMC. Ils ne paraissent généralement que dans la langue dans laquelle ils ont été communiqués et ne seront pas systématiquement traduits dans les langues de travail de l'OMC. Ils sont destinés aux salles de réunion de l'OMC et une cote non officielle leur est attribuée à des fins d'archivage.

Los documentos de la serie RD no son documentos oficiales de la OMC. Por lo general se distribuyen en el idioma en que han sido presentados y no se traducen sistemáticamente a los idiomas de trabajo de la Organización. Se distribuyen para su uso en las salas de reunión de la OMC y se les asigna una firma no oficial a efectos de archivo únicamente.

# African swine fever: tools to ensure safe trade

THEMATIC SESSION ON AFRICAN SWINE FEVER

WTO/SPS COMMITTEE

23 March 2021

Francisco Reviriego Gordejo

Head of Unit G2 – Animal Health

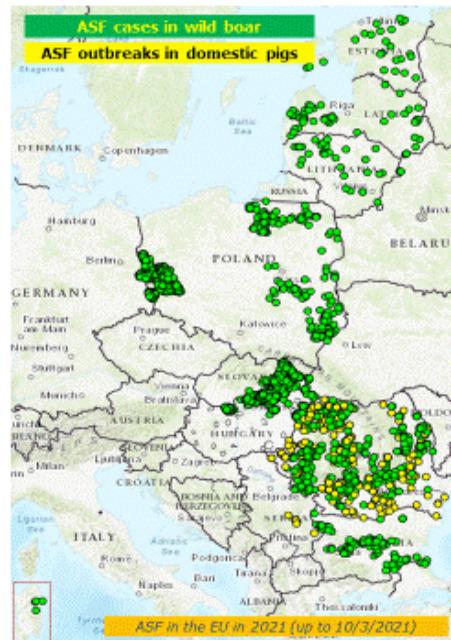

DG SANTE, European Commission

## ASF in the EU in 2014-2020

- 1. Lithuania (1/2014)**
- 2. Poland (1/2014)**
- 3. Latvia (6/2014)**
- 4. Estonia (7/2015) – last ASF outbreak in pigs 9/2017**
- 5. Romania (7/2017)**
- 6. Hungary (4/2018) – only in wild boar**
- 7. Bulgaria (6/2018)**
- 8. Slovakia (7/2019)**
- 9. Greece (2/2020) – one outbreak in pigs**
- 10. Germany (9/2020) – only in wild boar, close to PL border**
- 11. Sardinia, IT – unrelated epidemiological situation**

Czechia – 6/2017, free from ASF since 02/2019

Belgium – 9/2018, free from ASF since 11/2020

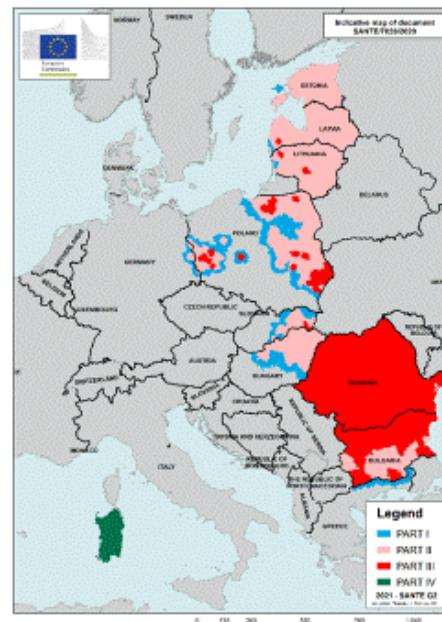

## Main EU initiatives on ASF

- Preparedness
- Scientific advice (EFSA)
- Network of labs (+ EURL)
- Research
- Legislation (horizontal + specific)
- EU Guidelines
- Regionalization (zoning)
- Border controls
- Audits
- Financial support
- Training (BTSF)
- Public awareness
- Urgent intervention (EUVET)
- International cooperation

## EU regionalization (zoning) policy on ASF

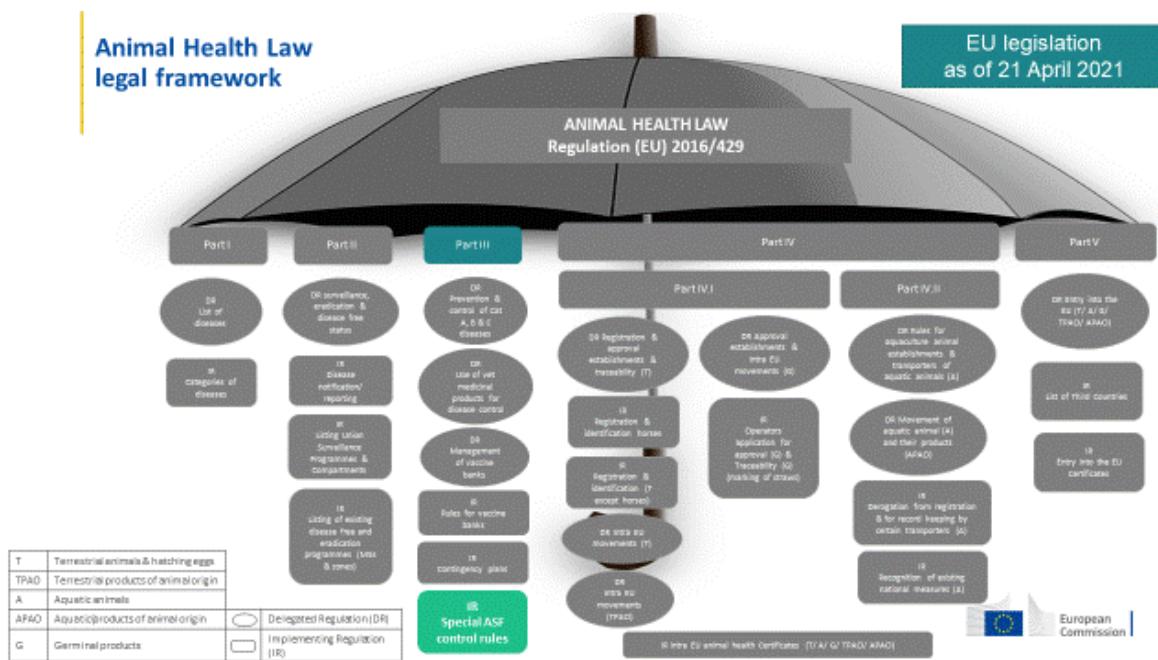

- Applied: since 2014
- Current EU regionalisation (zoning):
  - **Part I:** ASF not present. High risk zone.
  - **Part II:** ASF only in wild boar.
  - **Part III:** ASF in domestic pigs and wild boar.
  - **Part IV:** specific situation in Sardinia
- EU guidelines: the Strategic approach and the Principles and criteria available online
- Online interactive map
- Urgent and transparent information to trading partners

## EU regionalisation (zoning) measures = guaranty for safe trade

- The EU legislation foresees strict measures to apply regionalisation (zoning):
  - based on science;
  - fully in line with the international standards (e.g. OIE)
  - in areas affected - risk mitigation measures
- Business continuity:**
  - the negative impact of animal diseases is reduced (safe trade from non-restricted areas, safe derogations for affected areas, etc.)
- Proven to be effective to prevent/control/slow down the spread of diseases
  - eradication in certain situations: Czech Republic, Belgium
- Recognized internationally and by certain trading partners

**Countrywide bans by some trading partners, targeting also areas of the EU that are not affected by the disease, are unnecessary and disproportionate**

## Special ASF control measures (conditions for safe trade): examples

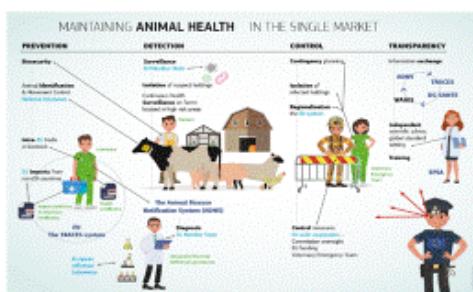

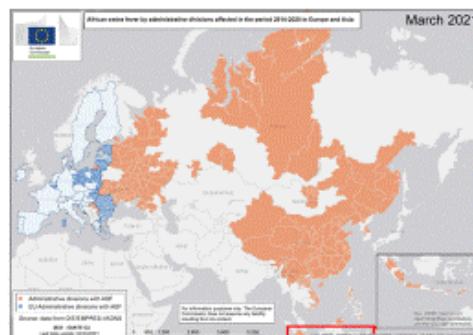

- **Restricted zones** categorised by the epidemiological ASF situation = **regionalisation** (zoning) in line with international standards
- **Prohibitions** of movements of certain commodities out of restricted zones
- **Derogations** from prohibitions only under specific **conditions** (surveillance, official control, a clinical examination, etc.) and **authorisation** by the competent authority
- Special **designation** of establishments and **requirements**
- **Information** and **training obligations**, public **awareness**
- Reinforced **biosecurity measures**

7

## Conclusions

- Overall, **ASF remains under control in the EU**
- It **remains a challenge in certain/limited areas/regions/MS** (regionalisation applied!)
  - Small - scale (backyard) farms
  - ASF control and eradication in wild boar in wide areas
- EU has a **knowledge** and **expertise to control and eradicate ASF**
  - in wild boar: ASF has been eradicated from CZ and BE
  - in domestic pigs: many good examples exist in the EU
- Overarching **EU animal health control = guaranty for safe trade**
  - **no outbreaks of diseases caused through (legal) trade (intra-EU or to other trading partners)!**
