¹ Documents issued in the RD series are not official WTO documents. They usually appear in their language of submission and will not be translated systematically into the working languages of the WTO. They are intended for use in WTO meeting rooms and are attributed an unofficial symbol for archiving purposes only.

Les documents de la série RD ne sont pas des documents officiels de l'OMC. Ils ne paraissent généralement que dans la langue dans laquelle ils ont été communiqués et ne seront pas systématiquement traduits dans les langues de travail de l'OMC. Ils sont destinés aux salles de réunion de l'OMC et une cote non officielle leur est attribuée à des fins d'archivage.

Los documentos de la serie RD no son documentos oficiales de la OMC. Por lo general se distribuyen en el idioma en que han sido presentados y no se traducen sistemáticamente a los idiomas de trabajo de la Organización. Se distribuyen para su uso en las salas de reunión de la OMC y se les asigna una firma no oficial a efectos de archivo únicamente.

Global research partnerships to generate scientific knowledge on ASF

GLOBAL AFRICAN SWINE FEVER RESEARCH ALLIANCE

The „Emergence“ of African swine fever

“The disease is present in Africa, mainly in many countries located south of the Sahara, in most of which the disease is endemic...” (European Commission; Animal Diseases)

ASF Germany: Number of wild boar cases tops Belgium

The number of African Swine Fever cases in wild boar in Germany has now officially exceeded those of Belgium's ASF cases. In this update also attention for Vietnam, that reopens for German pigmeat again and disputation about how Germany is tackling the ASF outbreaks.

Vision and Mission of GARA

❖ Vision:

A coordinated global research alliance enabling the progressive control and eradication of ASF.

❖ Mission:

To establish and sustain global research partnerships that will generate scientific knowledge and tools to contribute to the successful prevention, control and where feasible, eradication of African Swine Fever.

Strategic Goals

Goal 1. Identify research opportunities and facilitate collaborations within the Alliance

Goal 2. Conduct strategic and multi-disciplinary research to better understand ASF

Goal 3. Determine social and economic drivers and impact of ASF

Goal 4. Develop novel and improved tools to support the prevention and control of ASF

Goal 5. Determine the impact of ASF prevention and control tools

Goal 6. Serve as a communication and technology sharing gateway for the global ASF research community and stakeholders

African Swine Fever

Gap Analysis Report
November 2018

The purpose of this ASF Gap Analysis Report is to assess current scientific knowledge and the available countermeasures to effectively control and mitigate the impact of an ASF outbreak in countries experiencing outbreaks, and also support global control and eradication initiatives in ASF-endemic countries.

This ASF Gap Analysis Report is the compilation of four workshops organized by the GARA with the support of its partners.

Membership

- ❖ Any organization interested in enabling the GARA vision and mission is encouraged to join the alliance! Contact: Cyril.Gay@ARS.USDA.GOV
- ❖ There are three membership options:
 1. **GARA Partner.** ASF research organization that has signed the GARA Memorandum of Understanding
 2. **GARA Collaborator.** Organization that collaborates on a research project with a GARA member
 3. **GARA Stakeholder.** Organization that benefits, shares , or supports the GARA mission

GARA 2021

SCIENTIFIC MEETING

Kampala, Uganda
August 24 - 26, 2021

Advancing African Swine Fever Research by bridging the gaps with scientific information and tools

President:
Denis Kolbasov

Vice-President:
Zhiling Wong

Chief Executive Officer:
Amanda Bortas

Science Director:
Doug Blaauw
Karl Stahl

Finance Director:
Alex Morrow

Executive Secretary:
Tessa Ploegart

Scientific Committee:
Sandra Blomme
Doug Blaauw
Karl Stahl

Conference Organization:
Plenary, Oral, and Poster Presentations

Scientific Program:
Epidemiology, Prevention and Control;
Virology and Pathogenesis;
Diagnosis, Molecular Epidemiology, and
Strain Characterization
