Veterinary Certificate for the Export of Dogs/Cats from Countries (Zones) Considered Infected with Rabies to Taiwan

Note: For dogs/cats from rabies-free countries (zones), APHIA Form 001 applies.
Countries (zones) recognized as rabies-free by the competent authority of Taiwan: Australia, Czech Republic, Estonia, Iceland, Japan, New Zealand, Norway (excluding the archipelago of Svalbard), Singapore, Sweden, United Kingdom, State of Hawaii, and Territory of Guam of the United States of America.

Country (zone) of origin: _____ **Certificate number:** _____

Name of the exporter/consignor: _____ **Import permit number:** _____

Description of the dog/cat (quantity 1)

Species: _____ Sex: _____ Age or date of birth: _____ (D.O.B.: dd/mm/yyyy)

Microchip number: _____

Rabies vaccination

The most recent rabies vaccination:

Commercial name of vaccine: _____ Manufacturer: _____

Vaccination date: _____ (dd/mm/yyyy)

Rabies vaccination details on the import permit, if different from those listed above:

Commercial name of vaccine: _____ Manufacturer: _____

Vaccination date: _____ (dd/mm/yyyy)

Note: The dog/cat must have been vaccinated at no less than 90 days of age; also, the vaccination must have been administered no less than 30 days and no more than one year prior to importation. Only inactivated vaccines or vaccines with a veterinary drug license issued by the Animal and Plant Health Inspection Agency (APHIA) of Taiwan in accordance with the Veterinary Drugs Control Act are acceptable.

Rabies neutralizing antibody titer test (RNATT)

The most recent RNATT:

Date of sampling: _____ (dd/mm/yyyy) Result: _____ IU/ml

Name of the laboratory: _____

The previous RNATT: (If applicable)

Date of sampling: _____ (dd/mm/yyyy) Result: _____ IU/ml

Name of the laboratory: _____

Note: The dog/cat must have a satisfactory RNATT result (at least 0.5 IU/ml). All RNATTs must be conducted at a rabies reference laboratory of the World Organisation for Animal Health (WOAH) or a laboratory designated by APHIA of Taiwan. The blood sample for the most recent RNATT must be collected under one of the following conditions: (1) at least 90 days but no more than 1 year before importation; (2) at least 90 days but no more than 1 year after the date of the previous blood sampling that yielded a satisfactory RNATT result, and within 1 year before importation; or (3) before export from Taiwan and within 1 year before re-importation into Taiwan.
